

A. HPE Aruba Incentive for Disposal Program

Within the framework of the HPE Aruba Incentive for Disposal Program End-User Customers qualify when replacing old technology with an eligible new Hewlett Packard Enterprise (HPE) Product (to be found on the web site: [program start page](#)).

This Program applies indistinctly to purchases of eligible HPE Products made direct with HPE or indirectly with HPE resellers.

The chashback refund though, only ensues if the equipment the participant wants to return is directly and verifiably connected to the purchase of the eligible HPE Product.

This is a like-for-like product refresh only. The participant must purchase eligible HPE Products, and replace products of the same category type as the HPE Product to qualify.

The HPE Aruba Incentive for Disposal Program is hereafter referred to as "**Program**".

Participation in the program is consisting of 4 key steps.

- | The registration for participation, to be completed by the seller of the HPE Products ("**Actor**", followed by
- | the review and approval by HPE and finally, when the registration has been approved, the new products have been delivered,
- | the claim for refund can be finalized by the person or company who had been selected to receive the refund payment ("**Participant**").

Participants

Only HPE or HPE authorized Resellers are allowed to initiate registrations for this Program.

The Actor determines the beneficiary of the refund payment. Either themselves or the End-User Customer who purchased the eligible HPE Products and returns the Return Products against it.

The person or company receiving the Refund is hereafter referred to as "**Participant**".

The End-User Customer receives the financial benefit of the Program either directly through the payment of the refund or a purchasing discount granted by the Participant which results in an equivalent amount.

Products

The eligible products sold to the End-User Customer are referred in the following as "**HPE Products**".

Only new HPE products are eligible to take part in the program. Demonstration products as well as remarketing or used products are excluded from the program.

The used products which are replaced by the HPE Products, are referred as "**Return Products**".

The Return Products must have been legally owned by the End-User Customer for at least 6 months.

The Program is valid in respect of HPE Products sold within the program period by either directly HPE or an HPE Reseller to the End-User Customer.

The Program is not valid if the HPE Products are not owned by the Participant (for instance if the HPE Products are leased by the Participant).

The list of eligible products can be found on the [Eligible HPE products](#).

Refund Calculation

The calculation of refund amount is based on points assigned to the products.

For HPE Products and Return Products in the category Switching, Routing and Wireless Access Controller, points are equal to the number of functioning networking ports in each product.

For Transceivers 1 point is assigned per product, for DAC cables 2 points.

For HPE Products and Return Products in the Wireless Access Points and Access Controllers categories, points refer to the quantity of products.

To attain the maximum refund for each Return Product, the points for the corresponding HPE Products must be equal to or greater than the points assigned to the Return Product.

Return Products with points greater than the points assigned to corresponding HPE Product(s) will be accepted for being collected. However, no payment will exceed the maximum refund amount assigned to the corresponding HPE Products.

Return Products that qualify for fewer points than those assigned to the corresponding HPE Product(s) will qualify for a pro rata refund amount.
